# AMARI

THE STREAMLINED DESIGN OF AMARI FLOWS TOGETHER EFFORTLESSLY TO FORM THE PRECISELY SCULPTED CAST ALUMINUM FRAME. ALTHOUGH THE STYLING OF AMARI IS REMINISCENT OF AUTHENTIC MID-CENTURY FURNITURE, THERE IS A MORE RESERVED CHARACTER THAT ADAPTS TO A VARIETY OF TASTES. THE LIGHT AND AIRY SHAPE ALLOWS IT TO FIT EFFORTLESSLY INTO BOTH CONTEMPORARY AND CLASSIC ENVIRONMENTS, WHILE THE ABILITY TO CHOOSE BETWEEN WOVEN OR CUSHION SEATING FURTHER EXEMPLIFIES ITS VERSATILITY.

# DESIGN YOUR OWN KITCHEN

GENSUN HAS MADE DESIGNING YOUR OWN OUTDOOR KITCHEN AN EASY PROCESS. FOLLOW THE STEPS BELOW TO MAKE YOUR OUTDOOR KITCHEN EVERYTHING YOU WANT. IF YOU NEED HELP WITH SPACE PLANNING, OUR WEBSITE OFFERS A SPACE PLANNER WHERE YOU CAN FIT YOUR KITCHEN AND YOUR FURNITURE TO YOUR OUTDOOR SPACE.

## KITCHEN DESIGN STEPS

### DETERMINE THE LOCATION AND SIZE OF THE AREA FOR YOUR KITCHEN.

Keep in mind that for best grill performance the wind direction should come from the back of a grill.

### WHAT APPLIANCES DO YOU WANT IN YOUR KITCHEN?

We offer a variety of cabinets for gas/LP and kamado grills, side burners, beverage centers and sinks. We also have appliance opening panels to accommodate 18", 21" and 24" refrigerators, ice makers, etc. In addition, we offer PGS Appliances and Accessories.

#### KAMADO & GAS GRILLS

- 30" Modular Kamado Grill Cabinet accommodates these grills:  
Big Green Egg & Grill Dome up to Large Size, Kamado Joe up to Classic 18", Primo Oval Jr., Primo Kamado & other Kamado Grills up to 22" diameter
- 36" Modular Gas Grill Cabinet accommodates these grills:  
AOG 30NB-00SP, Bull Angus, Lonestar Select, Napoleon Prestige Pro 500, Outlaw & Lion 32", PGS S27T Grill - LP & PGS S27T Grill - NG & Saber SS 500 BI & Saber SSE 1500 BI Grills
- 42" Modular Gas Grill Cabinet accommodates these grills:  
AOG 36NB-00SP, Bull Brahma & Lion 40", Fire Magic A660i, E660i, A790i & E790i, Napoleon Prestige Pro 665, PGS S36T Grill - LP & PGS S36T Grill - NG & Saber SS 670 BI & Saber SSE 1670 BI Grills

#### SIDE BURNERS/SMALL BEVERAGE CENTERS

- 18" Modular Side Burner/Small Beverage Center Cabinet accommodates these side burners or small beverage centers:

#### LARGE BEVERAGE CENTERS

- 32" Modular Large Beverage Center Cabinet accommodates these beverage centers:  
Bull 30" Bar Caddy & Lion 30" Bar Center, PGS Large Beverage Center

### WHAT STORAGE CABINETS DO YOU WANT IN YOUR KITCHEN?

Cabinets come in door, drawer and drawer+door configurations and in many widths. There are corner cabinets if you want your kitchen to be an L or U in design.

### DO YOU WANT SEATING?

We have pedestal table seating and a fire table that accommodate up to 6 balcony/counter height stools.

### AFTER YOU HAVE DETERMINED YOUR CABINETS YOU WILL NEED TO ORDER TWO MORE COMPONENTS:

- The appropriate fascia panel to fit on the front of the cabinet(s) around the front of your gas grill, side burner or small beverage center.  
Kamado grill, drop-in side burners and sinks do not require fascia panels.
- An end cabinet side panel to give the cabinets at each end of your kitchen a finished look.

The last thing you need to decide is color. What color finish do you want on your cabinets and fascia panels. We offer 26 color finishes for you to choose from.

The countertop is up to you as we could never offer the vast choices that are available in the market. There are many suppliers of granite, marble, quartz, and other good products that can be used for your countertop. Please select a qualified company that will make and install your countertop to meet outdoor standards.

## CARE & MAINTENANCE

Gensun products are manufactured to give many years of enjoyment. In an effort to help you enjoy the furniture, kitchens and accessories over the years we highly recommend a regular schedule of care and maintenance. Failure to follow these guidelines can void the warranty.

Many fine products to care for the various materials of your furniture are available at your local casual and outdoor furniture dealer or hardware stores. A regular schedule should consist of cleaning the furniture, kitchen cabinets, fabric, woven material and other product materials at least twice a year but can vary due to usage, exposure and weather conditions. Gensun recommends a mild dish soap and warm water for best cleaning results on the metal frames, fabrics and woven material. Cleaning before storage is highly recommended so that any dirt or pollutants will not cause damage during storage. Difficult or stubborn stains on acrylic fabrics can be cleaned with more aggressive solutions – visit the fabric manufacturer websites for more information. Cleaning more often will not harm the high-quality materials used. A premium car wax should be applied after every cleaning.

### PLEASE NOTE:

- The hardware on swivel rockers, swivel rocking lounge & balcony chairs, and swivel bar & balcony stools should be regularly checked to make sure it is tight. Every 6 months or more often depending upon use.
- Weather, especially wind, can damage outdoor furniture. Care should be taken to protect outdoor products in windy conditions. It is always recommended to close umbrellas and privacy screens when not in use. It is also recommended to remove umbrellas from tables and lay umbrellas and privacy screens flat during windy conditions.
- All products should be covered if regularly exposed to the sun and weather conditions.
- Insect repellent (Deet), suntan lotions and harsh cleaners can be harmful to your furniture finish, fabrics and woven material. DO NOT allow any of these products to come in contact with the product as they can cause stains which are not covered under warranty. Gensun approves a mild dish soap and water mixture or 303 Patio Furniture products for cleaning and protecting our products. Other cleaners can void the warranty.

- Extension table slides should be cleaned regularly. A lubricant can also be applied to help the table easily slide.
- Adjustable glides on chairs, table legs, fire tables, etc. are for residential use only. Take special care that these glides are not adjusted to more than 3/16 inch or 0.5 cm of exposed threads as this can cause damage to the glide or leg. Regularly check the glides as they can unscrew when moving products. In commercial use these glides should be firmly tightened at all times. Periodic checks should be performed to confirm that the glides are tight or within the guidelines listed above. The adjustable glides on kitchen cabinet legs should not be adjusted to more than 1 inch or 2.5 cm of exposed thread.
- Cushions are manufactured using premium outdoor materials. These materials can absorb water and will not be damaged if they get wet for a time. However, cushions should not remain wet over a prolonged time as mold or mildew can occur. Protecting cushions from the elements using covers is recommended. If cushions do get wet open zippers and turn cushion so the zipper is facing down. This will allow moisture to properly drain and protect the cushion from mold, mildew and potential staining.
- Outdoor appliances should be operated with care and caution. The fire screen on wood fire tables should be in place whenever a fire is burning. Extreme care should be taken when working with or adding material to the fire bowl – use the tongs provide. DO NOT overload the fire bowl. Protective gloves should be used when handling the fire screen. Gas fire tables and appliances should be operated with extreme care – especially when lighting the burners. DO NOT light the fire table burner in the high gas setting. Only light the fire table in the low gas setting. Place a lit match on the glass before turning the gas on. See the appliance instruction manuals for details on proper operation, care and maintenance. DO NOT put the burner cover on until the fire media has cooled as the paint can discolor.
- Please refer to AEI Corp. website (aeicorporation.com) for care & maintenance instructions for PGS Grills & Appliances, Patio Comfort and Ambiance.

Please make sure that any water that may have accumulated in the tubular extrusions is drained prior to exposure of freezing conditions. Failure to do so can cause water to freeze inside and on the materials causing severe damage, tubing to burst, that is not covered under warranty. The furniture should always be stored in a dry area and an upright position.
