# Cushions and Pillows

Many pieces in the Seaside Collection are available with custom tailored cushions for adding that finishing touch of comfort and style. Decorative pillows are also available to accent cushions and furniture. Our fitted cushions and accent pillows are crafted with materials from Sunbrella or Outdura, the leaders in outdoor performance fabric. These fabrics are stain, fade and water resistant, making them as tough as they are beautiful.

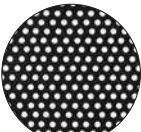

### Modern Cushion Design

Cushions can be ordered with a variety of stylish and functional details. Choose from standard or welted (contrast or self) edge styles using industry leading Sunbrella and Outdura fabrics. Customize with Customer's Own Material (COM) or add special features such as ties or Velcro straps.

Additional enhancements for premium outdoor performance include:

**NuGrip Mesh:** Cushions featuring NuGrip allow moisture and water to pass through freely for improved drying times, while also creating a strong non-slip surface reducing the need for ties and straps. NuGrip comes standard on the DEX Deep Seating Collection and may be added to any cushion code [N]. NuGrip cushions are non-reversible.

**Sunbrella Rain:** Cushions featuring Sunbrella Rain fabric resist water and moisture and require venting or NuGrip to allow for the quickest dry times in the industry. Select Rain fabrics are available on all deep seating options and may be added to respective cushion code [R] and are non-reversible.

# 10 reasons to choose Seaside.

1

## MADE IN THE USA.

We began making furniture at our Rhode Island lumberyard in 1996. It started as a hobby with just one Adirondack chair. With the encouragement of our local community, we began making and selling more chairs. That single design has now grown into a collection of over 100 products.

2

## ENVIROWOOD.

In 1999 we introduced EnviroWood — a 100% High Density Polyethylene (HDPE) lumber. Made from recycled plastic bottles and containers, EnviroWood is permeated with UV stabilized pigments that are consistent throughout the entire piece. The result is a smoother and more durable finish that prevents chalking and resists fading of the surface.

3

## INDOOR COMFORT & STYLE.

Our lumber is milled and routed to simulate the look and feel often found in traditional wood furniture. Joints are secured using mortise and tenon joinery and edges and corners are milled on precise CNC machinery. Our easy to install tap® hidden fastener system provides a clean, furniture grade finish that enhances the overall beauty and quality of our designs. In short, we produce our outdoor collection at specifications usually applied to interior furniture.

4

## STAINLESS FASTENERS.

All stainless steel fasteners are not created equal. Low grade stainless or painted components can easily corrode in harsh coastal environments. We use marine grade stainless steel (316) to ensure superior protection when exposed to the elements.

5

## SOLID AS A ROCK.

Unlike molded products, our frames are constructed with HDPE lumber components that are designed to withstand temperature and load changes. Structural aluminum is used to reinforce critical frame members in key locations. The result is a product that will not tip, topple, or turn over on your patio, deck, or lawn.

6

## SLATS AND SPACES.

Appropriately spaced slats are the difference between support and the feeling of "falling through" the seat or back of your chair.

7

## IT ONLY HAS A GOOD SIDE.

All of our products are completely finished on all surfaces. This means all backs and seats are slatted and supported so that they look and feel great even when cushions are not in use.

8

## CUSTOM UPHOLSTERY.

We offer a wide selection of custom fitted cushions made from Sunbrella and Outdura fabrics. These premium fabrics repel water, are stain resistant, and resist fading, even in the brightest of sun. The Sunbrella Rain fabric with mesh venting available on select collections is 100% waterproof and dries quickly, so you can spend more time enjoying life and less time waiting for cushions to dry.

9

## TAKE IT FOR A TEST DRIVE.

We test the ergonomics of our products constantly throughout the design phase and we believe our customers should have the opportunity to do the same when making a purchase. Because of this belief, we forge relationships with retailers who offer brick and mortar showrooms. These relationships ensure the expertise that we expect and the service our customers appreciate.

10

## PEACE OF MIND.

Most of our products are backed with a 20 year warranty that offer the support and commitment of a family-owned company with over 100 years in the making.
