FEEL THE DIFFERENCE THAT WRMTH BRINGS

Our patented thermal core adds controlled radiant heating to furniture generating a warm and soothing experience. Built to last and hand crafted in Ontario from modified stone each of our products are offered in a range of colours and patterns inspired by the Canadian shield.

A woman in a striped swimsuit is holding a baby in a hot tub. In the foreground, there is a modern patio chair with a white seat and backrest and a dark frame. The background shows a wooden deck, a concrete wall, and a mountain range under a blue sky.

THE MODERN MUSKOKA COLLECTION

Understated elegance is the essence of our Modern Muskoka collection. Swap Patio heaters for the Wrmth Modern Muskoka and enjoy a modern heated interpretation of the classic Canadian icons.

THE MODERN MUSKOKA

Modern style and innovation harmonize with comfort and luxury in our Modern Muskoka Chair. Designed and made in Canada, the Muskoka chair is essential for patio season and enjoying the outdoors.

Heat is efficiently directed on you rather than the environment, keeping you toasty. These advanced pieces are controllable through your mobile device. Personalise your experience from the temperature, lighting and the heating time, all from the convenience of your hand.

THE A-FRAME TABLE

Much as our Modern Muskoka harkens back to the great outdoors, as does our A-Frame Table. Thoughtfully designed, built to withstand everything the outdoors can throw at it, and available in a variety of finishes, this timeless piece of design is right at home on any patio or around any firepit, adding a touch of elegance to every setting.

THE CAMP TABLE

Simple, bold, and sturdy, the Camp table is sure to impress whether it's used around your firepit, or incorporated into your high end patio design. This striking design can be used as both a side table, as well as additional when in a pinch.
