“We design every American Hearth fireplace using the best available technology and build each one to the highest-quality standards in our manufacturing facility in Belleville, Illinois.

We make most of our components – from cutting steel to forming to welding to painting – and then hand assemble each fireplace to ensure the best fit and finish. For purchased parts, we give preference to North American suppliers – including our hand-painted log sets, our tempered and ceramic glass, the paint and powder coating, and even the packaging we use to protect our products until they reach your home.

The result is a fireplace that’s built to last by experienced craftsmen and craftswomen – a fireplace that’s as deeply rooted in history as fire itself – American Hearth.”

Renegade Direct-Vent Fireplace with TruFlame Technology

Renegade 50-inch Fireplace (56,500 BTUs) with Traditional Stone Liner, Forged Iron Front, and Rectangle Inset

RENEGADE CLEAN-FACE DIRECT-VENT LUXURY FIREPLACES WITH TRUFLAME TECHNOLOGY

Available in 36-inch, 40-inch, 40-inch See-Through and 50-inch models, the Renegade features a dual burner that creates a tall lively fire, accented with your choice of the Traditional Charred, Driftwood, or Birch log set, and large glowing ember bed. The huge ceramic glass front allows heat to easily transfer in to your living space and provides a clear view of the fire.

While the Renegade is a visually stunning fireplace, what you can't see makes it even more impressive. TruFlame Technology – featuring a ceramic catalyst – minimizes emissions while maximizing heat efficiency. This results in the most realistic flames, reminiscent of a wood burning fire.

An external air control eliminates the guesswork during setup and allows your dealer to fine tune the flame, ensuring a beautiful fire.

Renegade Direct-Vent Fireplace with TruFlame Technology

The list of accessories accents the fire within – starting with the rustic forged iron fronts. Use them alone or with the matching insets. Complete the look with a ceramic fiber liner and a set of decorative andirons.

The fireplace can also be outfitted for a more contemporary home with a black porcelain liner. The optional double blower distributes warmth throughout the room.

Boulevard Linear Fireplaces

BOULEVARD 36 AND 48 LINEAR DIRECT-VENT FIREPLACES

These fireplaces deliver all the ambiance and warmth you need for small to medium spaces. Choose the Boulevard 36 (29,000 BTUs Nat / 28,000 BTUs Propane), or the Boulevard 48 (38,000 BTUs Nat / 34,000 BTUs Propane).

Tailor your Boulevard to suit your taste, starting with a liner. Crushed glass covers the fireplace floor (available in a variety of colors). Choose Clear Frost, Copper Reflective or Bronze Reflective crushed glass. Accent with other glass colors (see page 29).

The Rustic Log Set includes a unique assortment of ceramic fiber logs and stones, for a more traditional look. An optional trim kit or front finishes the opening and adjusts for different depths of tile or stone.

Boulevard 60-inch Direct-Vent Fireplace with Ridgeback Corrugated Liner and Rustic Log Set

BOULEVARD 48 SEE-THROUGH, 60, AND 72 LINEAR DIRECT-VENT FIREPLACES

These fireplaces deliver all the ambiance and warmth you need for small to medium spaces. Choose the Boulevard 48 See-Through (37,000 BTUs Nat / 34,000 BTUs Propane), the Boulevard 60 (46,000 BTUs Nat / 42,500 BTUs Propane), or the Boulevard 72 (52,500 BTUs Nat / 50,000 BTUs Propane).

Tailor your Boulevard to suit your taste, starting with a liner. Crushed glass covers the fireplace floor (available in a variety of colors). Choose Clear Frost, Copper Reflective or Bronze Reflective crushed glass. Accent with other glass colors (see page 29). The traditional log set includes a unique assortment of logs, rocks and coils. For a more contemporary look, choose the sleek Driftwood log set. Add tile right up to the opening to create a stunningly beautiful, amazingly efficient clean-face fireplace. An optional trim kit or front finishes the opening and adjusts for different depths of tile or stone.

Canvas Portrait-Style Fireplaces

Canvas Portrait-Style Contemporary Direct-Vent Fireplace shown with White Round Bowl and Blue Clear Crushed Glass

CANVAS PORTRAIT-STYLE TRADITIONAL AND CONTEMPORARY FIREPLACES

With its clean vertical lines, the Canvas Portrait-Style Fireplace adds a striking design element to your home décor. Available in Contemporary and Traditional models, these unique fireplaces offer several designer options to let you create your perfect fireplace. The clean-face design allows tile or stonework to the edge of the fireplace opening.

In the contemporary models, the vertical motif carries through to the interior where multiple folds in the porcelain liner add to the impression of height. The rich black porcelain reflects the fire to create depth and enhance visual interest from any position in the room. The dual burner system resides in a round earthenware vessel – available in either black or white – filled with your choice of crushed glass. Variable accent lighting concealed beneath the floor creates a warm glow.

For a more conventional fireplace, choose the traditional model with its realistic hand-painted log set and ceiling-mounted accent lighting. Add the Cottage Angled Brick or Traditional Stone liner – or the Black Porcelain liner. The available andirons add to the old-world look. The optional blower aids in heat circulation.

All Canvas fireplaces include a multifunction remote control that can vary the flame height of the main burner. The remote lets you vary the accent lighting system, the optional blower, and even operate an unrelated appliance – such as a lamp or holiday decorations plugged into an outlet beneath the fireplace.

Canvas Portrait-Style Traditional Direct-Vent Fireplace with Traditional Stone Liner, Portico Front in Natural Iron, and Optional Andirons

Loft Contemporary Fireplaces

LOFT SERIES SMALL AND MEDIUM DIRECT-VENT FIREPLACES

Designed for in-wall installation, your direct-vent Loft fireplace delivers state-of-the-art technology for extraordinary performance.

Black porcelain lines the fireplace interior, including the burner top, creating a subtle reflective surface that enhances the appearance of depth. Flickering yellow flames dance atop the linear burner, echoing their light off the glass and the porcelain liner to create a nearly infinite flame effect – making your Loft fireplace mesmerizing from any angle.

The required metal surround is available in three styles and a variety of finishes.

Put a sparkle in your Loft fireplace by covering the burner top with the optional decorative glass. Choose from crushed glass, 1/2-inch droplets, and 1-inch drops. Available in Millivolt and Intermittent Pilot. These fireplaces require a barrier screen or decorative surround/front with barrier screen.

LOG SETS

Driftwood Fiber Log Set

Rustic Contemporary Fiber Log Set with Rocks

Madison Luxury Fireplaces

Madison 36 Luxury Direct-Vent Fireplace with Banded Brick Liner, Arched Louvers and Outer Frame in Matte Black in a Custom Mantel and Base

LUXURY SERIES

- **35,000 BTUs Nat, 36-inch, 13-piece Log Set (Top-Vent Only)**
- **30,000 BTUs Propane, 36-inch, 13-piece Log Set (Top-Vent Only)**
- **37,500 BTUs Nat, 42-inch, 13-piece Log Set (Top-Vent Only)**
- **35,000 BTUs Propane, 42-inch, 13-piece Log Set (Top-Vent Only)**

Madison Luxury models retain the same overall dimensions as Premium models but feature ceramic glass (for better heat transfer), dimmer-controlled accent lamp inside the fireplace, a unique banded brick liner (that combines traditional straight courses with a band of angled bricks), automatic blower, and an intricately detailed 13-piece log set atop the Slope Glaze Excess Burner for a fuller ember bed. And with its larger flame, the Luxury fireplace produces more heat.

Luxury models are offered in Millivolt (with standing pilot), Intermittent Pilot, and Multi-Function Remote models. Multi-Function Remote models include a thermostat remote control that automatically varies flame height and blower speed to maintain your pre-set temperature.

See pages 28-29 for liners, control options, decorative accessories, and required barrier screens.

PREMIUM SERIES

- **25,000 BTUs Nat, 36-inch, 4-piece Log Set**
- **27,000 BTUs Propane, 36-inch (Top-Vent Only), 4-piece Log Set**
- **28,000 BTUs, 42-inch, 4-piece Log Set**
- **30,000 BTUs, 48-inch, 4-piece Log Set**

Every Premium Madison model includes a tempered glass view window and a four-piece log set, mounted atop our legendary Slope Glaze Burner for a rich flame pattern within a taller, deeper log stack that complements the deeper fireplace (20 inches).

Premium Madisons are offered in Millivolt models (with standing pilot), in Intermittent Pilot models, and in Multi-Function Remote models. Multi-Function Remote models include a thermostat remote control that automatically varies flame height and blower speed to maintain your pre-set temperature.

See pages 28-29 for liners, control options, decorative accessories, and required barrier screens.

Madison 36 Premium Fireplace with Aged Brick Liner, Black Slat Louvers and Black Outer Trim with a White Standard Corner Mantel

DELUXE SERIES

- **18,000 BTUs, 32-inch, 5-piece Log Set**
- **20,000 BTUs, 36-inch, 5-piece Log Set**
- **25,000 BTUs, 42-inch, 7-piece Log Set**
- **28,000 BTUs, 48-inch, 7-piece Log Set**

The Contour Burner on Deluxe Madison models – designed specifically to complement the log set – produces a natural dancing flame. The large heat-resistant, tempered glass window provides an unobstructed view of the hand-painted log set.

Deluxe models require just 16 inches of depth, making them ideal for applications where wall-cavity space is tight.

Deluxe models are offered in Millivolt (with standing pilot), Direct Ignition, and Intermittent Pilot similar to modern gas range ignition.

See pages 28-29 for liners, control options, decorative accessories, and required barrier screens.

Madison 36 Deluxe Fireplace with Aged Brick Liner, Arch Louvers, Outer Trim in Black, and Cherry Mantel

Deluxe & Multisided Fireplaces

Madison Peninsula Direct-Vent Fireplace with Multi-Sided Refractory Log Set in Custom Mantel

DELUXE MULTI-SIDED FIREPLACES

These Madison 36-inch peninsula and see-through fireplace systems are rated at 35,000 BTUs and include a 24-inch Slope Glaze Vista Burner installed (and slightly recessed into the floor of the fireplace) ready for the matching Rock Creek Log Set (sold separately).

The unique Slope Glaze Vista Burner features ceramic pellets inside a large burner pan to create a deep field of dancing flames and is topped off with a hand-painted log set. Even when the fireplace is off, the available dimmer-controlled interior lighting creates drama in any room.

Designed to complement our existing fireplace products, the see-through and peninsula fireplaces accept many of the same decorative louver and door accessories as our conventional premium fireplaces, providing better continuity in homes with multiple fireplaces.

The see-through system is viewable from two sides for built-in-wall applications. The peninsula system is viewable from three sides making it ideal for building into buttress walls or installing in a peninsula mantel.

Madison Premium Clean-Face Direct-Vent Peninsula Fireplace, Brick Liner, and Mixed Stones and Logs, Installed in Custom Surround

PREMIUM CLEAN-FACE MULTI-SIDED FIREPLACES

These Madison 36-inch premium clean-face peninsula and see-through fireplace systems are rated at 34,000 BTUs (Nat) / 32,500 BTUs (Propane).

The see-through system is viewable from two sides for built-in-wall applications. The peninsula system is viewable from three sides making it ideal for building into buttress walls.

Both Peninsula and See-through models feature an attractive clean-face design that integrates the barrier screens into the fireplace – flush with the fireplace face – allowing you to install tile, brick, or other non-combustible materials right up to the fireplace opening.

Choose one of three liners and one of two log sets to customize your fireplace. The optional decorative doors and fronts let you finish your new fireplace in the look that suits your décor. Barrier screens included.

LUXURY CLEAN-FACE TRADITIONAL FIREPLACE

- **DVCX36FP – 37,000 BTUs, 36-inch, 5 x 8 Top Vent only (View area – 796 sq. in.)**
- **DVCX42FP – 40,000 BTUs, 42-inch, 5 x 8 Top Vent only (View area – 893 sq. in.)**

With its large ceramic glass window and clean-face design, the Luxury Clean-Face Madison looks just like a site-built fireplace, but delivers the convenience and operating efficiency of a modern gas system. The traditional luxury clean-face fireplace is available in 36-inch and 42-inch models.

The Luxury Clean-Face Madison includes a ceramic fiber brick floor that hePropanes support the massive log set. Add the matching Cottage Brick liner or change the look of your fireplace with the Traditional Stone or Black Porcelain liner.

The 10-piece ceramic fiber log set is hand painted for stunning realism with detailed bark, knots, and charring.

Add a decorative front or door set to your new direct-vent luxury fireplace. Each fireplace comes with a fireplace barrier screen to prevent contact with the hot glass. Add the available andirons to convey an old-world look.

The available dimmer-controlled lighting kit draws attention to your American Hearth fireplace even when no fire is burning. Enhance heat distribution with the optional variable-speed blower.

Luxury models are available in three distinct technologies: premium-level Multi-Function Remote system, Millivolt, or Intermittent Pilot.

Premium Clean-Face Fireplaces

PREMIUM CLEAN-FACE TRADITIONAL FIREPLACE

- **DVCP32BP – 24,000 BTUs, 32-inch, 4 x 6 5/8 Top Vent only (View area – 684 sq. in.)**
- **DVCP36BP – 24,000 BTUs, 36-inch, 4 x 6 5/8 Top Vent only (View area – 759 sq. in.)**
- **DVCP42BP – 28,500 BTUs, 42-inch, 4 x 6 5/8 Top Vent only (View area – 963 sq. in.)**

The Premium Clean-Face Madison includes a tempered glass view window and a unique burner that delivers a rich flame pattern. The ceramic fiber log set is required (but sold separately). Each log is hand-painted for stunning realism with detailed bark, knots, and charring.

Ceramic Fiber Liner options for Premium models include a traditional Aged Brick with smoky highlights and an old-world Cottage Brick. Or choose the deep black polished porcelain-steel liner that reflects the flames for a luxurious effect.

The available lighting kit draws attention to the intricate details in the log set and brick liner – even when no fire is burning. You can enhance heat distribution with the optional variable-speed blower. Both the light and blower include dimmer controls.

Premium models are available in Millivolt and Intermittent Pilot. Barrier screen included.

*Premium Clean-Face Traditional Direct-Vent Fireplace
with Aged Brick Liner*

PREMIUM CLEAN-FACE CONTEMPORARY FIREPLACE

- **DVCC32BP – 24,000 BTUs, 32-inch, 4 x 6 5/8 Top Vent only (View area – 684 sq. in.)**
- **DVCC36BP – 24,000 BTUs, 36-inch, 4 x 6 5/8 Top Vent only (View area – 759 sq. in.)**
- **DVCC42BP – 26,500 BTUs, 42-inch, 4 x 6 5/8 Top Vent only (View area – 963 sq. in.)**

The Premium Clean-Face Madison includes a tempered glass view window and a unique burner that delivers a rich flame pattern. Choose between a hand-painted ceramic fiber log set or rock set (required, but sold separately).

The contemporary fireplace includes a deep black polished porcelain-steel liner with added angles to enhance the reflected flames.

Create highlights on the glass media and porcelain liner with the optional lighting kit. And the optional variable-speed blower hePropanes circulate warm air throughout your living space. Both the kits include dimmer controls.

Premium models are available in Millivolt and Intermittent Pilot. Barrier screen included.

*Premium Clean-Face Contemporary Direct-Vent Fireplace
with Black Porcelain Liner and Driftwood Log Set*

DELUXE CLEAN-FACE DIRECT-VENT FIREPLACES

With their louverless fronts and edge-to-edge viewing area, these Madison clean-face fireplaces serve as the ideal focal point for any new construction or remodeling project. Choose Millivolt or IP (Natural or Propane) for reliable heating – even in a power outage – or IP, which eliminates the standing pilot light for even greater energy efficiency.

Available in 32-inch (18,000 BTUs), 36-inch (20,000 BTUs), or 42-inch (25,000 BTUs), these fireplace systems feature hand-painted ceramic fiber logs atop our proven Contour burner. As versatile as they are attractive, these Deluxe Fireplaces require just 17 3/4-inches wall depth for installation and allow top or rear venting. Optional accessory liners available in Aged Brick, Stacked Stone, Herringbone, or Black Reflective. A factory-installed blower model is also available. Barrier screen included.

See page 27 for profile mantels and mantelshelves and 29 for liners and control options.

Madison 32 Clean-Face Deluxe Direct-Vent Fireplace with Aged Brick Liner, Custom Mantel and Surround

Renegade Fireplace Inserts

Renegade 30-inch Direct-Vent Fireplace Insert with Cottage Brick Liner and Traditional Charred Log Set

RENEGADE INSERTS WITH TRUFLAME TECHNOLOGY

Available in 30-inch and 35-inch models, Renegade Direct-Vent Inserts turn your wood-burning fireplace into an attractive and efficient centerpiece. The TruFlame system combines technology with aesthetics to create truly realistic flames and a glowing ember bed, reminiscent of a wood fire. Beneath the logs, the massive field of glowing embers assures everyone that this fireplace has been warming your home all day. Concealed beneath the logs and embers, the two burners let you vary the flame and the heat output to create the perfect mood.

Complementing the logs and giant ember bed, TruFlame Technology includes two burners for independent front/rear burner control of the ultra-realistic flames. With both burners in your control, you can call for a roaring fire, a low glow, or anywhere in between.

Renegade 35-inch Direct-Vent Fireplace Insert with Black Glass Liner, Driftwood Log Set, Forged Iron Front and Rectangle Inset

The multifunction remote operates as a conventional thermostat, a Smart Thermostat which modulates flame height as the room reaches the desired temperature, or as a manual control. The remote also operates the included accent light and blower.

Your Renegade Direct-Vent Insert includes the accent light and blower. Customize your insert further by choosing a liner and log set (both required), and finish it with a required surround and optional front.

Franklin Direct-Vent Fireplace Inserts

Franklin Direct-Vent Fireplace Insert with Herringbone Liner, I-Piece Metal Frame, and Lancaster Front in Bronze

FRANKLIN MODELS

A wood-burning fireplace sends more than half of its heat up the flue, creating negative pressure in your home, which draws in outside air through gaps in doors and windows. A wood fire can actually make your home colder.

A Direct-Vent insert system eliminates pressure imbalances in the home that can cause drafts that reduce the effectiveness of your heating. The Franklin Direct-Vent insert uses readily available 3-inch flexible co-linear vent pipes. At up to 73% efficient, the Franklin Direct-Vent Insert makes a great heat source for any room in your home.

Tailor your insert with one of three liners, plus surrounds in Black and Bronze, and decorative fronts in three styles.

Loft Direct-Vent Fireplace Inserts

LOFT FIREPLACE INSERTS

Installing a Loft Fireplace Insert turns your messy and inefficient wood-burning fireplace into a clean-burning, efficient heat source – an investment that will quickly pay for itself in saved energy and reduced hassle.

Available in Millivolt and in energy-saving on/off Intermittent Pilot control systems, your insert starts saving energy and improving your décor from the moment you first turn it on.

Loft Direct-Vent Fireplace Insert with Black Reflective Decorative Glass and Matte Black Surround

DECORATIVE FRONTS AND GLASS

For the Loft DV Insert, choose a matching contemporary surround in all black or in black and stainless steel. The bold stainless steel panels top and bottom accentuate the clean horizontal look of the Loft Insert. Complete your Loft insert with decorative glass – available in Black Polished, Blue Clear, Clear Frost, Bronze Reflective, and Copper Reflective.

Spirit Direct-Vent Cast Iron Stoves

Spirit Medium Direct-Vent Cast Iron Stove in Porcelain Black with Barrier Screen and optional Side Shelves

SPIRIT DIRECT-VENT CAST IRON STOVES

Direct-vent Spirit Stoves come standard with an Expanded Slope Glaze Burner system – which adds an extra inch of ember bed. Topped off with the hand-painted ceramic fiber log set, the effect is stunningly realistic and guaranteed to keep you and your guests mesmerized for hours.

Spirit Stoves are available in two types of ignition – Millivolt (MV) and Intermittent Pilot (IP). The Millivolt system lights a standing pilot with a push-button piezo ignitor. Once the standing pilot is lit, the MV system operates with an on/off switch concealed on the back of the unit, or optional remote control system. Both systems allow your Spirit stove to provide heat during power outages.

IP systems eliminate the standing pilot for even greater energy savings. Pressing the on/off switch ignites the pilot, which then ignites the main burner. IP systems can also operate with an optional remote control system. Battery backup allows your Spirit stove to provide heat during power outages.

Spirit direct-vent models use standard 4 x 6 5/8 black vent pipe and require a 45-degree angle pipe off the back to vent vertically or horizontally. The stove generates sufficient heat to warm any room in your home or provide total heat for a small cabin. Your dealer can help you determine your heating requirements.

All Spirit Cast Iron Stoves ship assembled in one carton for easier set-up, and include a barrier screen.

Spirit Cast Iron Stoves are available in two sizes – small (20,000 BTUs) and medium (27,000 BTUs).

Floor pads are available, but not required. You can place your Spirit Stove directly on carpet or tile.

Spirit Gas Stoves include a hand-painted log set and Slope Glaze Burner

Van Buren B-Vent Fireplaces

Van Buren 36 Deluxe Fireplace shown Aged Brick Liner and Extruded Frame in Matte Black, in a Profile Mantel

VAN BUREN SERIES

Van Buren B-Vent Fireplaces combine modern technology with traditional venting to create the appearance and performance of a conventional fireplace but with the convenience of gas.

Our B-Vent systems let you prolong the flicker of the flames without overheating your room. The BVD34 input is 21,000 BTUs; the BVD36 is 25,000 BTUs; and the Premium BVP42 is 30,000 BTUs.

The hand-painted ceramic fiber log set features large logs, arranged to fill the fireplace and complement the flames.

Our deep Premium 42-inch B-Vent fireplace features our Vented Slope Glaze Burner – the industry standard for great looking flames. Ceramic glazed pellets in the burner tumble and swirl the gas to produce a natural flickering fire.

See pages 28-29 for options and accessories.

Elite Radiant Vented Burners

The Elite Radiant Vented Burners deliver more heat to your room and more flames to your fireplace. With their unique construction and integrated radiant fiber heat sink, these burners produce dancing flames without using sand or vermiculite. Feel more heat radiate back into your room, all while using less fuel than a standard vented burner.

FEATURES

- 18-inch (33,000 BTU)
- 24-inch (55,000 BTU)
- 30-inch (65,000 BTU)

OPTIONS & ACCSSORIES

- Match Light
- Manual Safety Pilot
- Millivolt
- Variable Remote
- IPI with Variable Remote

Pioneer 18-Inch (LPR) Refractory Log Set

Kensington Forest 18-Inch (LKF) Ceramic Fiber Log Set

Pioneer 24-Inch (LPR) Refractory Log Set

Kensington Forest 24-Inch (LKF) Ceramic Fiber Log Set

SINGLE VENTED BURNERS

The Single Burner features one large tube burner that creates massive flames to compliment the large log sets.

Treehouse 7 (LTH7) Refractory Log Set

Great Lakes Oak (LGLO) Refractory Log Set

A vented gas log set makes a great alternative to the hassle of building a log fire in your wood-burning fireplace. Just like a wood fire, a vented gas log set provides plenty of mesmerizing flames and flickering light. And when you are ready for bed, just flick the switch to turn it off – no waiting for the embers to die down. Vented log sets are considered decorative systems and must be installed in a vented fireplace with the damper open and may not operate by thermostat.

- Available in LP and Natural Gas in 18, 24, and 30-inch models - up to 75,000 BTUs
- Choose from log sets in ceramic fiber, refractory concrete, and Burncrete®

Super Stacked Wildwood Refractory Log Set (LS24WRS)

Driftwood Burncrete® Log Set (LS24CD)

Williamsburg Refractory Log Set (ALS18CR2)

Ravenwood Select Log Set (ALS24RVS)

Birch Burncrete Log Set (LS18CB)

Saratoga Refractory Log Set (ALS24SG)

VENTED SLOPE GLAZE BURNERS AND LOGS

A vented gas log set makes a great alternative to the hassle of building a log fire in your wood-burning fireplace. Just like a wood fire, a vented gas log set provides plenty of mesmerizing flames and flickering light. And when you are ready for bed, just flick the switch to turn it off – no waiting for the embers to die down.

Our Vented Slope Glaze Burners are rated at up to 75,000 BTUs to create taller flames. Vented log sets are considered decorative systems and must be installed in a vented fireplace with the damper open.

Vented Slope Glaze burners are available in 18, 24, and 30 inches in Millivolt and manual models. The Millivolt Vented Burners may be operated with an on/off remote control or wall switch. Vented systems may not operate on a thermostat.

Charleston Refractory Log Set (ALS-24CR1) with Vented Slope Glaze Burner System (VSR-24)

Ravenwood Select Refractory Log Set (ALS-24RVS) with Vented Slope Glaze Burner System (VSR-24)

Ravenwood Refractory Log Set (ALS-24RV) with Vented Slope Glaze Burner System (VSR-24)

Saratoga Refractory Log Set (ALS-24SG) with Vented Slope Glaze Burner System (VSR-24)

Yorktown Refractory Log Set (ALS-24YK) with Vented Slope Glaze Burner System (VSR-24)

Outdoor Logs and Burners

OUTDOOR FIRE PITS

Made from heavy marine-grade stainless steel, our Fire Pits are built to withstand harsh environments – whether it's poolside or seaside. Fire Pits offer manual valve and electronic ignition (with flame sensor) and are available with or without Multi-colored LED Lighting. Installed low to the ground or at table height, a Linear Fire Pit provides all the excitement and ambiance, while allowing a clear view to the rest of your yard.

Our linear Fire Pits are available in 48-inch (55,000 BTUs), and 60-inch (65,000 BTUs). Accessories include weather doors/covers, tempered glass wind guards, and drain trays to control water run-off.

OUTDOOR FIREPLACE SYSTEMS

A fireplace extends the season for the outdoor living space you worked so hard to create. Our Carol Rose Coastal Collection includes linear and conventional fireplaces, linear fire pits, fireboxes, traditional log sets and contemporary burners.

All of our outdoor hearth products feature concealed controls and stainless steel for all exterior surfaces to provide lasting beauty. These products are designed for outdoor use only. For installation on a covered deck or porch, at least two sides of the enclosure must remain open at all times.

LINEAR FIREPLACES

These large fireplaces are designed to serve as the centerpiece of your outdoor entertaining. Available in see-through and single-sided models, our linear systems feature a burner concealed beneath a bed of clear frost crushed glass and illuminated from below with LED lighting. Simple intuitive controls let you program the lighting to change color, intensity, and tempo to suit your mood. A push of a button lights the fire and a sensor shuts off the gas if the flame is extinguished. A manual control valve offers three flame settings. Choose 48-inch at 55,000 BTUs or 60-inch at 65,000 BTUs. Options include weather doors and a drain tray to control water runoff.

CONVENTIONAL OUTDOOR FIREPLACES AND FIREBOXES

The Carol Rose Coastal Collection started with this traditional fireplace and a refractory log set. Available in 36-inch and 42-inch sizes.

Carol Rose Coastal Collection 60-inch Contemporary Linear Outdoor Fire Pit with Multi-colored LED Lighting in a custom table

Carol Rose Coastal Collection 48-inch Contemporary Linear Outdoor See-Through Fireplace in a custom surround

Carol Rose Coastal Collection 48-inch Contemporary Linear Outdoor Single-Sided Fireplace in a custom surround

*These special outdoor products are named for customer service manager Carol Rose Burtz, who has been with Empire since 1959. As the first time we have named a product for an employee, this represents an appropriate honor recognizing Carol's exceptional history with the company.
Shown: Carol Rose Coastal Collection 36-inch Traditional Outdoor Fireplace*

The traditional fireplaces are rated at 50,000 BTUs for both the 36-inch and 42-inch sizes. Options include weather doors, bi-fold doors, and drain trays.

Our Direct Ignition systems fit your green lifestyle by eliminating the standing pilot light. Millivolt systems include a standing pilot and will operate with an optional remote or wall switch.

Our fireboxes (36 or 42-inch) share the same stainless steel construction but allow you to install another outdoor gas burner or log set.

TRADITIONAL BURNERS AND LOG SETS

The Carol Rose Coastal Collection includes the Wildwood Refractory Log Set designed specifically for outdoor use with our Harmony Stainless Steel Burner. Both the 24-inch and 30-inch burners are rated at 50,000 BTUs – generating plenty of flames to complement the massive concrete log set.

Available in IP Ignition, these burners feature internal baffles to induce movement in the flames for an exceptionally natural looking fire.

CONTEMPORARY BURNERS

Our contemporary burner completes your modern outdoor décor. With stainless steel top and linear burner, these systems deliver 40,000 BTUs – plenty of fire to warm your guests and light up your outdoor event.

Choose Natural Gas or Propane in IP Ignition – for installation in an outdoor fireplace or firebox only.

Carol Rose Coastal Collection Ventless Harmony Outdoor Burner with 24-inch Wildwood Log Set

Carol Rose Coastal Collection 30-inch Ventless Contemporary Outdoor Burner
