

LINCOLN SERIES VENT-FREE FIREPLACES

AMERICAN HEARTH

LINCOLN 24 – A FULL-FEATURED FIREPLACE FOR SMALLER SPACES

The Lincoln 24 delivers the beauty of hand-painted ceramic fiber logs and natural flickering flames to dens, halls, and even bedrooms.

Lincoln 24 Fireplaces are rated at 20,000 Btu – enough heat to keep a family room cozy and warm. Special 10,000 Btu models are available in Millivolt and Intermittent Pilot for bedroom installations, where allowed by local codes.

The Lincoln 24 fireplace includes matte black louvers and frame. Available accessories include louvers and metal frames (in hammered pewter), blowers, brick liners, remote controls, and Standard Cabinet and Corner Mantels (in cherry, dark oak, oak, unfinished hardwood, and white).

CONTROL OPTIONS

The basic Lincoln 24 operates with a built-in modulating hydraulic thermostat that automatically manages the flame to maintain your preset room temperature.

The Remote-Ready Millivolt Lincoln 24 Fireplace works with any of our battery operated Thermostat Remote Controls, or connect to a simple wall switch or wall thermostat.

The Intermittent Pilot Lincoln saves even more energy by eliminating the standing pilot – yet can still operate in a power outage with a battery backup.

LINCOLN 26 SPECIAL EDITION

The Lincoln 26 Special Edition is the American-made fireplace system that ships complete in one package. This package system installs in as little as 30 minutes, minimizing labor costs. A total mantel footprint of just over 17 by 45 inches makes the Lincoln 26 Special Edition ideal for tight spaces and small rooms.

The Lincoln 26 Special Edition is available in two mantel colors – cherry, and white – and in modulating hydraulic thermostat and Millivolt control. Add a wall thermostat, remote control, or thermostat remote control.

Available accessories include Hammered Pewter trim, blower, and Banded Brick liner.

LINCOLN 26

We also offer the Lincoln 26 as a separate fireplace – perfect for built-in and custom mantel applications. Or choose one of our cabinet or corner cabinet mantels, available in five finishes – cherry, dark oak, oak, and white – plus unfinished hardwood.

The 10,000 Btu version may be installed in bedrooms, where allowed by code.

LINCOLN PREMIUM 32 AND 36 MODELS

Standard Features

At 99.9 percent efficient, the Vent-Free Lincoln Fireplace delivers more heat for your energy dollars – 32,000 BTU for the Lincoln 32 and 36,000 Btu for the Lincoln 36. Ceramic glazed pellets in the burner tumble and swirl the gas to produce a natural flickering flame.

Choose one of four available log sets – Ceramic Fiber, Ravenwood Refractory, Ravenwood Select Refractory, or Williamsburg Refractory. All are hand painted for exceptional realism and exquisite detail. Choose one of five liners – aged brick, stacked limestone, traditional, banded brick, or black porcelain.

The matte black arched screen front perfectly frames the logs and optional brick liner to create an exceptionally beautiful fireplace. All Lincoln fireplaces come with matte black slat louvers and hood.

Extruded Aluminum Frames

*Matte Black
(Shown on Cherry Mantel)*

*Hammered Pewter
(Shown on Oak Mantel)*

Lincoln Decorative Trim is available in Classic Matte Black or Rich Hammered Pewter.

OUTER FRAMES AND BOTTOM TRIM

Our metal three-piece outer frames let you transition from your fireplace to any adjoining surface – wooden mantel, tile, stone, or any noncombustible material. Our from steel frames – with traditional crisp lines – are available in matte black or hammered pewter.

Our bottom trim completes the fourth side of the color frame.

Multisided Fireplace Systems

LINCOLN MULTISIDED FIREPLACE SYSTEMS

At 99.9-percent efficient, the 38,000 Btu Lincoln vent-free multisided system is the ultimate supplemental heat source for any home. This clean-burning fireplace employs oxygen depletion sensor technology to continuously monitor your room air and instantly shut off the gas well before oxygen drops to an unsafe level.

Lincoln systems include a built-in 24-inch Slope Glaze Vista Vent-Free Burner, arched frames with fixed screens, Banded Brick Liner, and glowing embers. The 24-inch Raleigh refractory log set must be ordered to complete the fireplace.
